

Rohit Maurya

08368802824 | rohit139maurya@gmail.com | LinkedIn | GitHub | Portfolio | Delhi, India

PROFILE SUMMARY

Full Stack Developer with expertise in building scalable web applications and AI-powered solutions. Proficient in MERN stack, Next.js, and LLM integration with hands-on experience in developing enterprise-grade applications. Demonstrated success in implementing RAG architecture, vector databases, and real-time features. Strong problem-solving skills with GATE CS qualification and proven ability to deliver production-ready applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Material UI, HTML5, CSS3

Backend: Node.js, Express.js, MySQL, MongoDB, REST APIs, JWT Authentication, WebSockets, Socket.io

AI/ML: Groq API, OpenAI API, LangChain, LangGraph, LangSmith, RAG, Pinecone, Vector Databases, Gemini API

Tools & Platforms: Git, GitHub, Postman, npm, Vercel, Render, Netlify, ScaleKit, Tavily API

WORK EXPERIENCE

Full Stack Web Developer

Feb 2026 – Present

Codtech IT Solutions Pvt Ltd

Remote

- Developed and maintained scalable web applications using MERN stack, ensuring high performance and reliability
- Integrated third-party APIs and AI services including LLMs for intelligent application features

Full Stack Developer Intern

Oct 2025 – Nov 2025

Excellence Technologies Pvt Ltd

Noida, India

- Engineered secure authentication system using JWT and implemented role-based access control
- Developed optimized RESTful APIs with comprehensive error handling and input validation
- Improved application performance through code optimization and database query tuning

PROJECTS

HelpDesk Agent | *Next.js, ScaleKit, Gemini API, TypeScript*

Live

- Built SaaS chatbot platform enabling businesses to generate and embed AI-powered support bots via script integration
- Integrated Google Gemini API for intelligent knowledge-base-driven responses with secure ScaleKit authentication
- Designed full-stack application architecture on Vercel handling API design, user onboarding, and dynamic bot generation

Enterprise IQ | *Node.js, Express.js, Groq, OpenAI, LangChain, Pinecone, React.js*

Live

- Built AI-driven internal chatbot using LLM and RAG architecture, reducing policy lookup time by 80 percent
- Implemented OpenAI Embeddings and Pinecone Vector DB for semantic search with automated document processing pipeline
- Integrated LangChain for document ingestion and retrieval orchestration ensuring accurate responses to complex queries

BuddyAI | *React.js, Tailwind CSS, Node.js, Express.js, Groq, Tavily API*

Live

- Built intelligent chatbot leveraging Groq Cloud APIs for natural language processing with low-latency responses
- Integrated Tavily API for real-time web search enabling up-to-date information on current events
- Implemented multi-session chat history with context retention for personalized user interactions

Netwise | *React.js, Tailwind CSS, Node.js, Express.js, Socket.io, MongoDB, JWT*

Live

- Developed full-stack professional networking platform with real-time notifications using MERN stack and Socket.io
- Built secure JWT authentication, user profiles, post creation, real-time likes, comments, and connection management
- Designed responsive UI with Tailwind CSS and scalable RESTful API architecture for optimal cross-device performance

EDUCATION

Guru Gobind Singh Indraprastha University

Delhi, India

Bachelor of Technology in Computer Science and Engineering; CGPA: 9.04

2020 – 2024

ACHIEVEMENTS AND CERTIFICATIONS

GATE Computer Science: Qualified GATE CS examination twice in 2024 and 2025

Bharat Dynamics Limited: Cleared written examination for Management Trainee role in 2025
