EDUCATION

Guru Gobind Singh Indraprastha University

Delhi, India

Bachelor of Technology in Computer Science and Engineering; CGPA: 9.04

2020 – 2024

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Material UI, HTML5, CSS3

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, WebSockets (Socket.io)

AI/ML Integration: Groq API, Tavily, LLM-powered applications, RAG (Retrieval-Augmented Generation)

Tools & Technologies: Git/GitHub, Postman, npm, Vercel, Render, Netlify

Core CS Concepts: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Full Stack Developer Intern

Oct 2025 – Nov 2025

Excellence Technologies Pvt Ltd

Noida, India

- Engineered secure authentication system with signup, login, email verification, and password reset functionality using MERN stack, improving user security and onboarding experience
- Developed and optimized RESTful APIs with comprehensive error handling, increasing backend reliability by 30% and reducing API response time
- Collaborated with cross-functional team using Git/GitHub for version control, code reviews, and continuous deployment, ensuring code quality and smooth integration

PROJECTS

BuddyAI | React.js, Tailwind CSS, Node.js, Express.js, Groq, Tavily

Live

- Built an intelligent AI-powered chatbot leveraging Groq Cloud APIs for natural language understanding and generation
- Integrated Tavily API for real-time web search capabilities, enabling the chatbot to provide up-to-date information and accurate responses
- Implemented advanced conversation memory system with multi-session chat history and context retention, enhancing user experience through personalized interactions

Netwise | React.js, Tailwind CSS, Node.js, Express.js, Socket.io, MongoDB, JWT

Live

- Developed a full-stack LinkedIn-inspired professional networking platform with real-time features using MERN stack and Socket.io
- Built comprehensive features including secure authentication, user profiles, post creation (text/image), real-time likes and comments, and connection request management
- Designed responsive UI and scalable backend architecture with RESTful APIs, ensuring optimal performance and user experience across devices

QuickCart | Next.js, Tailwind CSS, Clerk, Inngest, JavaScript

Live

- Created a fully responsive e-commerce application with role-based authentication for Sellers and Customers, featuring product management, shopping cart, and checkout functionality
- Integrated Clerk for seamless Google OAuth authentication and Inngest for automated backend workflows, enhancing scalability and user experience
- Implemented dynamic product catalog, order management system, and payment processing, delivering a complete end-to-end e-commerce solution

ACHIEVEMENTS & CERTIFICATIONS

GATE Computer Science: Qualified GATE CS exam twice (2024, 2025), demonstrating strong fundamentals in computer science

Bharat Dynamics Limited: Cleared written examination for Management Trainee role (2025)
